3D Diagnostic Devices Database

Diagnostic Devices Database

The screenshot shows the search interface for the 3D Diagnostic Devices Database. At the top, there are two tabs: "MICROBIOLOGY" (highlighted in pink) and "SEROLOGY" (grey). Below the tabs, the search criteria are organized into sections:

- Marker/Organism**: Includes a "Sub Discipline" dropdown menu with options: All, Virology, Bacteriology, Parasitology, Mycology. Below it is a "Marker/Organism" dropdown menu with "All" selected.
- Detection**: A dropdown menu with "All" selected.
- Format**: A dropdown menu with "All" selected.
- Manufacturer**: A dropdown menu with "All" selected.
- Search Options**: Two checkboxes, "CE mark" and "Show discontinued kits", both of which are currently unchecked.

At the bottom of the form is a large grey button labeled "Search 3Ds".
